

Breaking new ground. Below ground.

Subsurface Drip Irrigation: Now a Viable Technology

Copper Shield™

Presented by Samir Shah, Dave Palumbo and Alex Nathanson, Rain Bird Corporation

- New technology overcomes hurdles that previous subsurface drip products could not
- Prevents root intrusion with innovative Copper Shield™ emitters
- Creates long-lasting, low-maintenance, eco-friendly irrigation system
- For use under turf grass or shrub and groundcover areas
- Subsurface drip can be 90% efficient and save up to 70% water
